MACKAYIWONG CHOSEN TO EXPAND GEORGIAN DOWNS GAMING FACILITY

TORONTO, ON | January 9, 2008

MackayWong Strategic Design is pleased to announce they have been chosen to expand the gaming and horse-racing facilities of **Georgian Downs**, located in Innisfil, Ontario. This design contract was won through a competitive bid process initiated by **Ontario Lottery and Gaming** (OLG). The current racino is home to 450 slot machines, several restaurants and a European-style racetrack. Along with an update to its existing amenities, the renovation will involve a 50,000 sq. ft. expansion consisting of a new lobby, bar, restaurant, café and substantial expansion to the gaming floor. Georgian Downs aims to have these new services fully operational by the spring of 2009.

Over the past eight years, MackayWong has been instrumental in developing many of OLG's gaming facilities and related amenities, including Caesars Windsor Resort, Casino Rama Resort, The Slots at Ajax Downs and Fallsview Casino Resort. They have become one of OLG's key strategic creative and management partners in the timely delivery of these complex and time-sensitive gaming projects.
